

Web-Based Training Curriculum Conversion and Services

- Q1.** Do we assume that you are looking for Software as a Service only? Is this a technology service only?
- R1.** **No. This procurement is open to various approaches and methodologies. No.**
- Q2.** Do we assume that you are not looking for course design or development from the vendor?
- R2.** **No. Course design and development could possibly be offered as part of the services.**
- Q3.** Will the “course authors” be developing the content?
- R3.** **Yes, possibly in conjunction with a vendor.**
- Q4.** How much experience do your course authors have in e-learning? Are they subject matter experts, instructional designers or both?
- R4.** **The e-learning experience of the course authors vary throughout the Department. All divisions have individuals who are subject matter experts regarding their program’s policies and practices.**
